Jesus is Lord of the Sabbath

June 21, 2026 **Text: Mark 2:18-3:6** **Dr. Stephen Burrell**

God's laws are for our benefit.

Jesus' point is that human need takes precedence over rigid rule-keeping.

God's commands are meant to give life, not restrict it unnecessarily.

Mercy and human need are more important than rigid rule-keeping.

God's laws are meant to guide and inspire us to do good.

The laws of God are meant to bring joy.

They come from a compassionate God who loves his creation.

They are designed for relational observance, not rigid adherence.
