

# Natural Attributes

December 1, 2024

Text: Isaiah 45:5-6

Dr. Stephen Burrell

- Tension: God's Natural Attributes - These are those permanent qualities that belong to His nature, those qualities without which He would not be God.
- To God, there is no time, past, present, or future.
- There is no limit to his attributes that constrain him.
- To be the true God, He must have neither beginning nor end.
- God Is Self-Sufficient – He Has No Needs.
- Because God is self-sufficient, we can go to him to satisfy all our needs.
- We never have to worry about “drying up” his never-ending well of goodness, peace, mercy, and grace.
- Immutability – God is unchangeable.
- While all creatures change, God is perpetually the same.
- God's immutability is so vitally important because it is this attribute that enables us to depend on God to be God.
- Omnipotent means to have unlimited power (omni = all; potent = powerful).
